

Assem Khalaili

Vice President

Gas Services – Siemens Energy

Profile

Mr. Khalaili is a senior executive with over three decades of experience in the energy, industrial, and manufacturing sectors. In 2024, he was appointed by the Siemens Energy Executive Board to lead the company's Gas Services mega-projects, overseeing project execution, strategic initiatives, business growth, and global partnerships.

Following the establishment of Siemens Energy as an independent company in 2020, he assumed global responsibility for the company's Photovoltaic business, managing its commercial and operational activities worldwide. Prior to this, he served as Executive Vice President – Business Development & Strategy for Power Generation Services in the Middle East and North Africa, while also holding the role of Chief Digitalization Officer. In these positions, he led business development, operational excellence, environmental, health and safety initiatives, digital transformation programs, and strategic partnerships.

Since joining Siemens in the Middle East in 2005, Mr. Khalaili has held several leadership roles, including Executive Vice President of Industry Services. His career spans sales, services, project management, product management, and manufacturing, with notable achievements in digitalization, innovation, customer engagement, and value creation. He holds a Bachelor's degree in Engineering and a Higher Studies Diploma, earned in 1994.
