

Hamad Alnuaimi

Head of Telecom Division

ICT Center, Abu Dhabi Police GHQ

Profile

In 2002, I Joined Abu Dhabi Police and started working as a Network technician, at the same time, my passion for educational qualifications was under my target. Thus, I worked hard in parallel and earned my HD (Higher Diploma) degree at CNET (computer Network Engineering Tech) from the HCT (Higher College of Technology) AlAin city , as well as my Bachelor degree in computer Networking. In 2009, I moved to New York State and applied for SU (Syracuse University) where I completed my Master Degree in Telecommunication Network Management. In 2018 I earned my higher degree in PHD Project Management from the British University in Dubai. I attended more than 100+ events, workshops and conferences internally and externally and most of them were about Network Security and telecommunication as well as cyber security. However, my responsibility at Abu Dhabi police GHQ as telecom section manager makes me always busy, I do have other role as a telecom committee manager for most of the events around Abu Dhabi city such as , Grand Prix Formula One event. Co-Founder of “Digital Barza“ which has more than 100+ members to accelerate the process of sharing and exchanging the knowledge.
