BUID · ACADEMIC YEAR 2026-2027

# HEALTH, SAFETY & WELLBEING ON CAMPUS

*Safe. Smart. Sustainable.*

Dubai International Academic City

# Safety Is Everyone's Responsibility

Every person on campus — student, staff or visitor — plays a part in keeping BUiD a safe, healthy and supportive place to learn and work. This induction walks through what that means for you.

# Campus at a Glance

## Block 10 & Block 11

Three floors across two connected blocks

## 16 Teaching Rooms

Plus 4 Engineering & IT labs

## 8:00 AM – 10:00 PM

Monday to Saturday · closed Sundays & public holidays

## Dubai International Academic City

# Classroom Titles

**FF101 – FF106**

FIRST FLOOR, BLOCK 10, CLASSROOM NUMBER

**FF111 – FF113**

FIRST FLOOR, BLOCK 11, CLASSROOM NUMBER

**SF111 – SF116**

SECOND FLOOR, BLOCK 11, CLASSROOM NUMBER

# Who Keeps Our Campus Safe?

*Every individual contributes to campus safety — no one group carries it alone.*

Management

Faculty

Staff

Students

Visitors

The University Management Team, Faculty, Staff, Students and Visitors all share responsibility for a safe campus.

# Your Safety Responsibilities

## Know emergency procedures

Familiarise yourself with evacuation routes and assembly points

## Report hazards

Tell a staff member about anything that could cause harm

## Attend safety briefings

Take an active interest in health and safety updates

## Follow campus rules

Never interfere with fire extinguishers, alarms or sprinklers

## Take care of yourself and others

Report accidents and near misses immediately

# See It? Report It.

A hazard is anything with the potential to cause harm. If you spot one of these, tell a staff member right away.

Wet floors

Damaged furniture

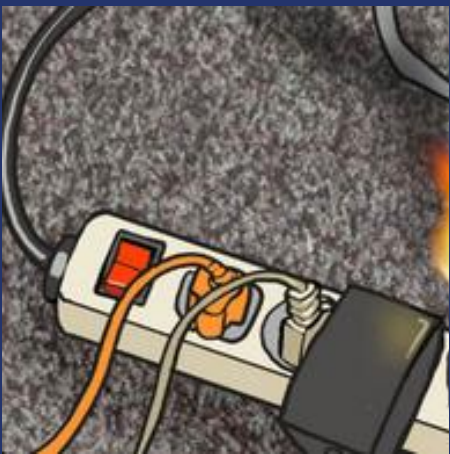

loose cables

Unsafe behaviour

Obstructed exits

*Real example: a frayed, overloaded socket reported on campus — exactly the kind of hazard to flag immediately.*

## Report a Hazard

Scan the QR code on any campus noticeboard, or tell Security / your tutor directly.

# Fire Safety Systems on Campus

Fire Extinguishers

Fire Alarm Call Points

Smoke Detection

Emergency Exits

These systems protect lives. Tampering with them is a serious offence and subject to University disciplinary action.

# If You Discover a Fire

**Raise the Alarm**

Activate the nearest call point (emergency break glass)

**Evacuate Immediately**

Leave the building — do not attempt to fight the fire

**Inform Staff**

Let a staff member know, if it's safe to do so

**Go to the Assembly Point**

Proceed to the nearest designated assembly point

*It could be a drill or a real fire — in every case, you must evacuate the building.*

# Fire Alarm? Act Immediately

## DO

Use the stairs

Follow evacuation coordinators

Proceed to the assembly point

## DON'T

Use lifts

Delay evacuation

Re-enter the building

# Emergency Response Guide

999

Police

998

Ambulance

997

Fire

Stay Calm

Call for Help

Follow Instructions

# Medical Emergencies & First Aid

If you feel unwell on campus:

## Inform a staff member

Let the nearest staff member or tutor know straight away

## Contact Security

Security desk between the 1st floor of Block 10 and 11

## Call 998 if required

Dial the medical emergency number for urgent cases

# Nearby Medical Facilities

For non-emergency care, two trusted facilities are a short distance from campus.

## Fakeeh University Hospital

Dubai Silicon Oasis

~10 minutes from campus

A world-class hospital offering comprehensive emergency and specialist care.

## Aster Clinic

Dubai Silicon Oasis

~6 minutes from campus

State-of-the-art laboratory, physiotherapy and X-ray facilities.

# First Aid Box Locations

Student Lounge

Block 10, 1st floor

Engineering Science Lab

Block 10, 1st floor

Admin Area

Block 11, 1st floor

Meeting Room Area

Block 11, 2nd floor, near Meeting Room 1

# Smoke-Free Campus

*It is an offence to smoke in any other area of the campus.*

## No Smoking

The University campus is a no-smoking zone

## No Vaping

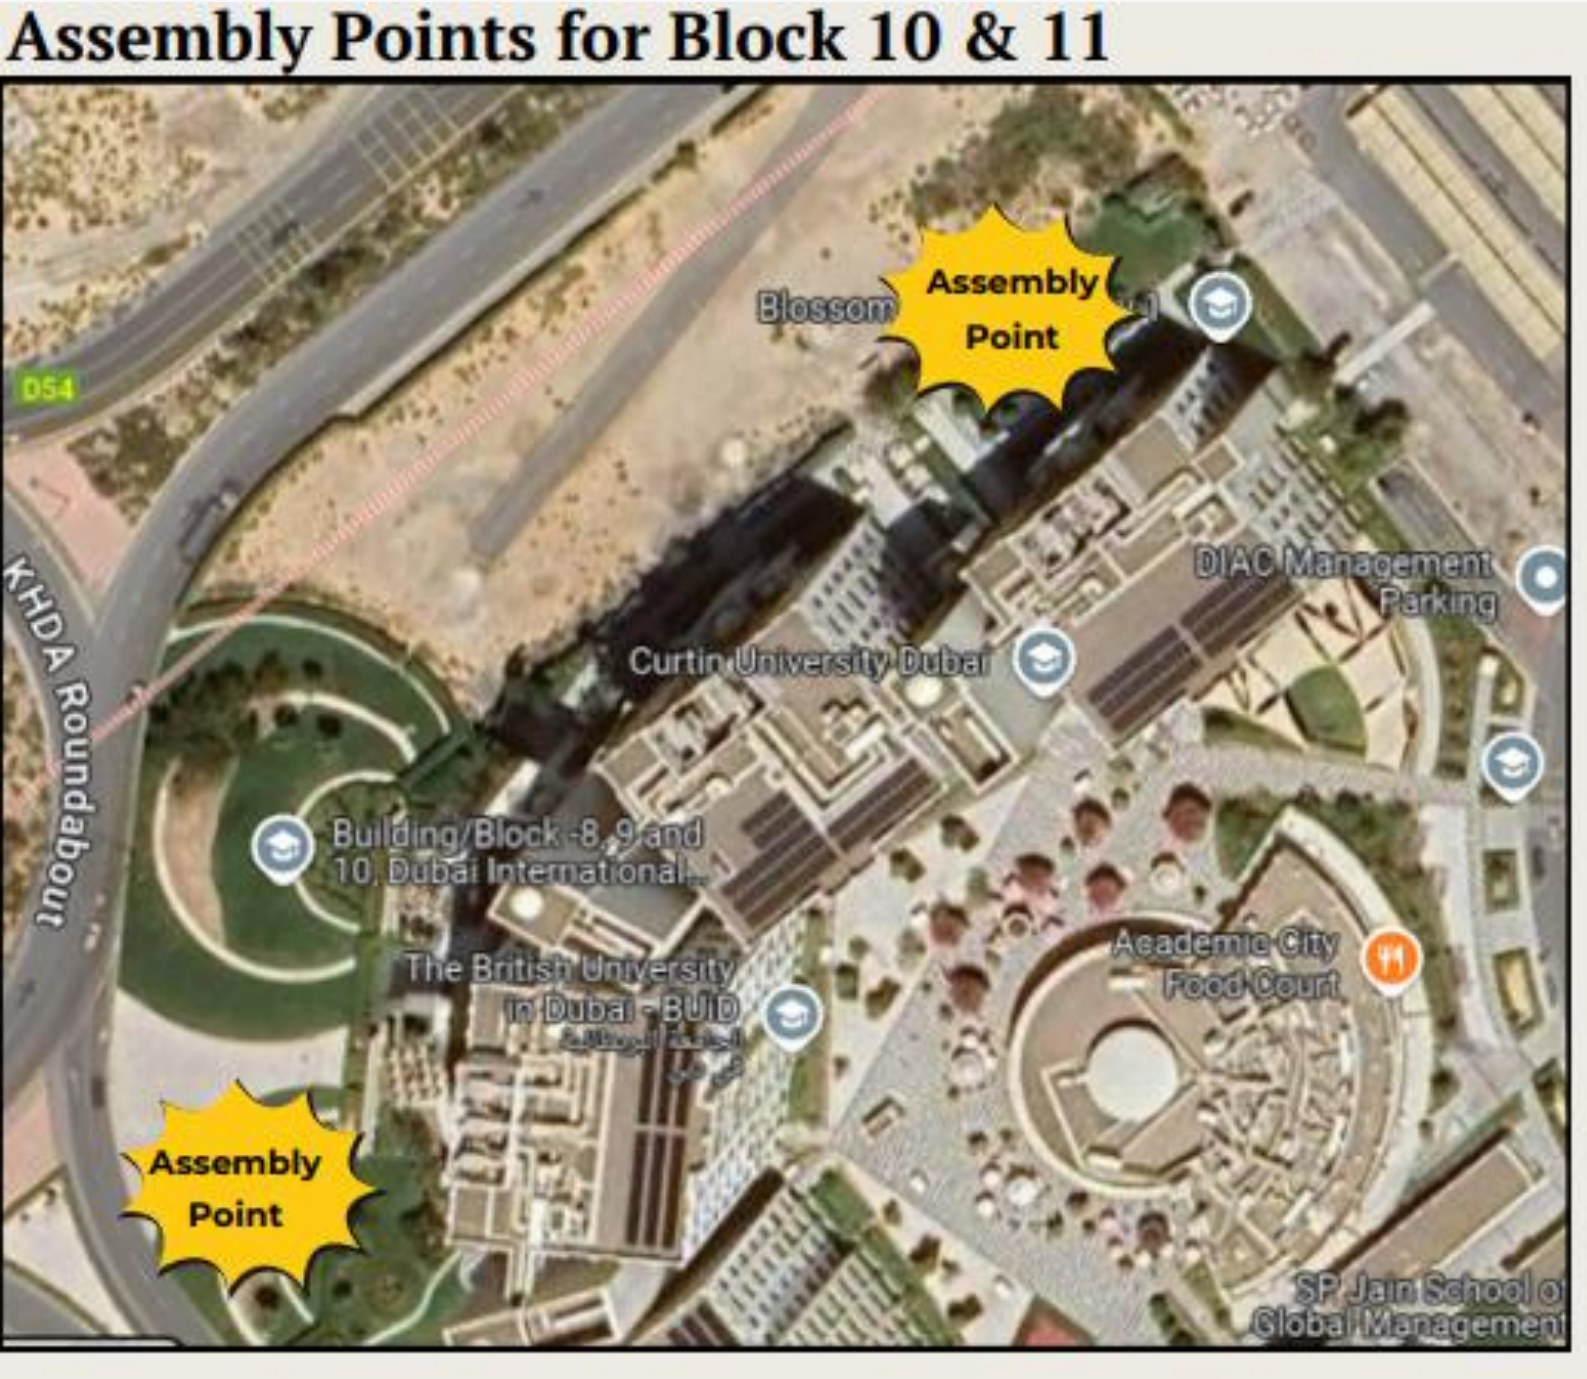

Vaping is not permitted anywhere on campus

## Designated Area Only

Ground floor open area of Block 11

# Emergency Assembly Points

Follow the colour-coded evacuation routes posted on every floor to reach your nearest assembly point.

## Evacuation Coordinators

### Chief Evacuation Coordinator

Mr Hassan 050 578 7376

### Day Evacuation Coordinators

Mr Shiraz & Mr Raj Kumar 04 279 1469

### Night Evacuation Coordinator

Mr Bharath 04 279 1469
